# CONTACTLESS PAYMENT,

## Innovative, secure, simple and fast

Contactless payment means you can pay for and validate your journey on board a coach, bus, tram or metro.

Simply present your contactless payment card or smartphone at the metro kiosks or at the terminals on buses, trams and coaches, which are identified by this symbol.

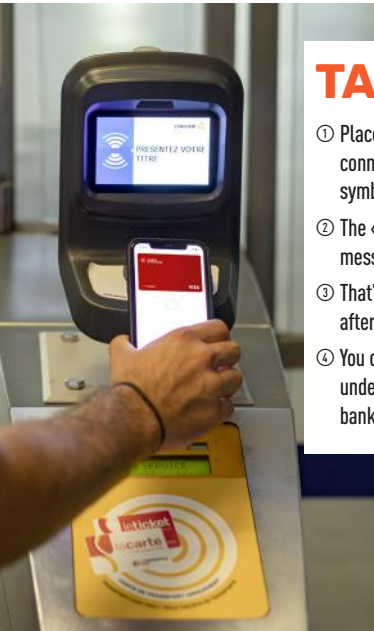

- I pay and validate my journey using my contactless payment card, smartphone or connected watch,
- I buy and validate in a single gesture,
- I no longer need a paper ticket from a ticket machine or in a shop,
- I don't need to ask the driver for a ticket,
- I no longer have to queue in front of vending machines,
- I don't have any tickets to throw away, and I don't need any change.

## TAP AND GO!

- 1 Place your contactless payment card, phone or connected watch on the terminal identified by this symbol. No need to insert a card or enter your PIN.
- 2 The «payment card validated» message is displayed. 
- 3 That's all! You will be debited the day after, for all journeys made the day before.
- 4 You can consult your journeys on Lepilote.com under «Contactless payment» or directly on your bank statement.

### GOOD TO KNOW :

Contactless payment means you can use your payment card directly in the vehicle, without having to go to the ticket machine or a shop.

This service widens the range of payment options:

- **leticket** contactless ticket
- **la carte** contactless season ticket
- Mticket: smartphone application

► Contactless payment does not include student or senior fares.

► It does not allow multiple validation. **One payment card (or connected object) = one passenger.** It is not possible to use the same payment method for several people at the same time.

> In the **EVENT OF A TICKET INSPECTION**, simply present the payment card or connected object used for validation.

> **CONNECTIONS:** these work in the same way as the single ticket.

Within the same commercial network, the contactless payment device must be validated every time you board, even when transferring for a connection.

When boarding a connecting trip, validation must be made with the same payment method as used initially.

A new contactless payment is required to use a different commercial network.

> **TRAVEL HISTORY / RECEIPTS** can be consulted by entering the payment card number on <https://openpayment.lametropolemobilite.fr/>

- You can view your journeys as soon as you have validated your contactless payment.

- Payments can be viewed and receipts are issued on D+1

- The debits are visible on your bank account on D+1 or D+2 depending on the bank, and you will be debited the day after, in a single payment, for all journeys made the day before.

Networks/Lines	Travel price by payment at the terminal
Marseille network / RTM	1.70 €
Marseille <> airport <b>lecar+ 91</b>	10 €
Aix-en-Provence <> airport <b>lecar+ 40</b>
